<input type="checkbox"/> New 1509-1519 North Capitol Street, NE Development		7:30PM-7:50PM
The project is an all-affordable multi-family building at 1509-1519 North Capitol Street NE, containing ~139 dwelling units and ~83,930 SF. The project has a building height of 130 feet and a lot occupancy of 73% on the upper floors. A special exception from the loading requirements is being requested from the BZA to allow for no loading to be provided on the lot since no curb cut exists along the property's North Capitol frontage and the site has no alley access. The project will instead use a commercial loading zone along North Capitol Street.
