

T St NE between Lincoln Rd and 2nd St NE

One-Way Conversion with Contraflow Bike Lane

Todd Pl NE Traffic Direction Change from Eastbound to Westbound

The District Department of Transportation (DDOT) received a Traffic Safety Assessment (TSA) request in September 2019 from ANC Commissioner Sylvia Pinkney (5E04), requesting for a permanent one-way conversion on T St NE. In November 2019, Langley Elementary School also fully supported this TSA. In February 2020, DDOT shared the study results with the ANC and the school, recommending the permanent one-way conversion. During the public health emergency, DDOT has further reviewed and has come up with additional improvements, which can be found below.

Planned Changes

1. Permanent one way eastbound on T St NE between Lincoln and 2nd St NE

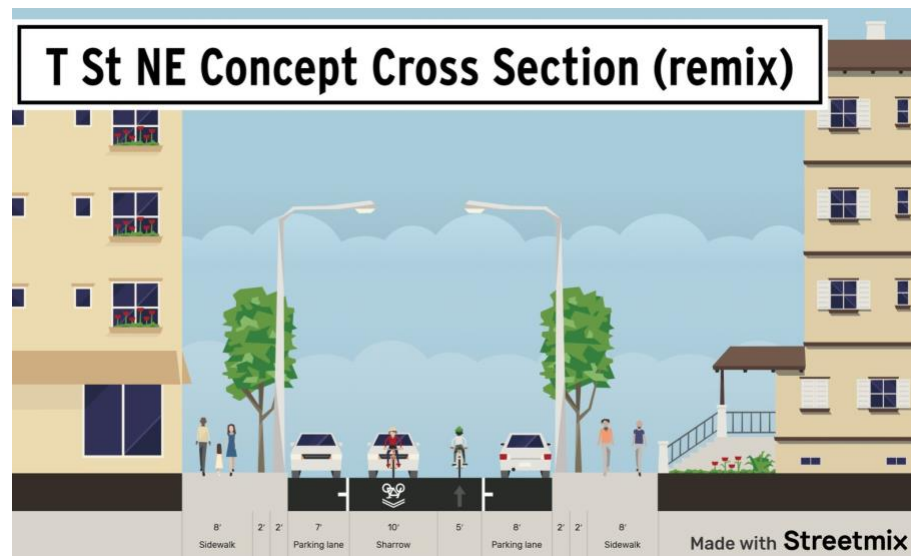

Note: currently one-way between Lincoln Rd and Summit Pl during school hours only

2. Contraflow bike lane along T St in addition to the one-way conversation

Note: there will be no parking impact as there will be parking lanes on both sides

3. Todd Pl NE one-way westbound

Note: currently one-way eastbound

Next Steps

DDOT would like to hear from you. Please send your feedback to Kelly Jeong-Olson (DDOT Community Engagement Specialist for Ward 5) at kelly.jeong-olson1@dc.gov or talk to your ANC commissioner/Civic Association so that they can provide collective feedback to DDOT.

Feedback deadline is Friday, October 30, 2020. Based on the feedback, DDOT will be issuing a Notice of Intent (NOI).

Existing contraflow bike lane in the 700 block of G St NE
One-way traffic with parking on both sides
